

**PRINTED CIRCUIT BOARD MANUFACTURER REQUIRES A,
PCB ASSEMBLER.**

A Vacancy has arisen for an Experienced PCB Assembler, on a Full-Time basis.

A brief description of the role and experience required:

- Assembly of Conventional Circuit Boards.
- Manual Soldering.
- Operate a wave Soldering Machine.
- Have experience in Electronic Product Assembly.
- Have knowledge of simple components level PCB population.
- Have Knowledge of conventional electronic component/packages and component polarity.
- Interpretation of manufacturing documentation, (i.e. parts list, drawings, procedures).

- Knowledge of IPC-A-610 and Lead Free processes would be beneficial.

This is a Full time position with overtime.

Own transport is essential, due to the rural location.
